PSYCH-K™

"The aim in life is self development, to realize one's nature perfectly. That is what we are here for."

Oscar Wilde

Using Kinesiology, or muscle testing, we can determine what blocks you from experiencing the greatest expression of yourself. During the session these blocks are released from your subconscious mind, and self supporting ones take their place.

Holistic Kinesiology

"Sweet are the uses of adversity."

As You Like It - by William Shakespeare

HK makes use of muscle testing to explore the many levels of consciousness in order to arrive at the optimal place for you in this particular moment. You will resonate in closer harmony with your Divine Being.

Feng Shui

"Why hang a self portrait when you can walk around in one?"
Better Homes and Gardens

During your consultation I will evaluate Yin and Yang components, the Five Elements, and Chi Flow of your home or office. Recommendations are then made to balance what is energetically missing or in excess; so that the space nourishes your health, wealth and vitality.

The work I do provides a wide spectrum of healing methods for my clients. By using any or all of these modalities the space is created for Grace to enter and to do the real work of healing. Here a few comments from my clients:

"You're like a fountain of love pouring out on those around you."
Chris K., Santa Fe, NM

"Barbara is very knowledgeable. I enjoyed my Feng Shui consultation immensely. Oh and yes, I have a new love in my life now."
Sharon W., Ft. Worth, TX

"That PSYCH-K work is amazing! My fear of flying is just gone, vanished!"

John B. Birmingham, AL

"Barbara has the most healing hands I've ever felt. She's the reason I came in to work today."

Melody S., Irving, TX

"My HK sessions reveal so much. I got a lot of relief; and the insights, 'aha moments' just keep coming."

Cathy O. Dallas, TX.

Massage Therapy

Massage assists us in noticing our current body/mind state. The process of massage provides a mirror image that is sometimes visual, sometimes kinesthetic or even auditory. You receive gentle practiced pressure giving you a snap-shot of how your body is in this moment. Noticing, with compassionate attention, sets us on the path of healing.

Gentle, therapeutic, loving, respectful touch gets you in-touch with your physical gifts, where Spirit resides.

We begin to see ourselves spiritually when we honor the first gift we are given, a body.

PSYCH-K™

PSYCH-K™ works with the higher vibrations of thoughts and feelings. These are located in the subconscious mind.

With kinesiology, or muscle testing, we are able to determine the thoughts or feelings that don't support you. The PSYCH-K™ process changes these into ones that do support your body/mind.

For more information about PSYCH-K please see www.psych-k.com

Holistic Kinesiology

HK works with the body, mind and spirit. Your consultation begins with a verbal discussion of what is going on for you in this moment and what you'd like to see different in your life. HK allows your body to guide and direct the healing agenda.

Feng Shui

Our physical surroundings are a wonderful place to begin seeing all of life as endless patterns of energy.

It's easy to see and feeling changes during your Feng Shui consultation.

Changes like the direction the bed faces, or adding a mirror can have profound effects. Very often minor color changes balance a room completely leaving everyone feeling more alive and energized.

A Feng Shui consultation provides a template for harmonious relationships. The relationship you have with your self, with others and the dwelling itself flows like a dance celebrating harmonious life and love.
